IS YOUR NNSC MEMBERSHIP CURRENT?

There are several ways to submit an application, including on-line. If you'd like to use old fashioned paper and check, you can find a [membership form](#) on the NNSC web site, the last page of this newsletter, or at club meetings.

Sitting at your computer checking out the latest snow reports? While you are there, click on the NNSC web page

<http://www.nooksacknordicskiclub.org> and renew your membership! From the **Membership tab**, select **Join / Renew**. Look for the link to the **Online Membership Form** and fill in all of the pertinent information.

If using the online form, you'll have an opportunity to pay by PayPal after completing the form.

Using either method, please fill out the form completely. Sign on paper or electronically. Include all of your family on household memberships. And, remember to include your license plate number if buying a Sno-Park permit.

Why not fill out a form right now while you're thinking about it? Or, come to the meeting on Thursday December 3rd and pay then.

BUY YOUR SNO-PARK PERMIT!

Don't forget to buy a Sno-Park permit! You'll need one to park at the Salmon Ridge Sno-Park, or across the highway at the Anderson Creek or Silver Fir campground, between Nov 1st to April 30th. You can purchase them through our ski club NNSC, or at REI, Back-country Essentials, or at Cross-roads

Grocery in Maple Falls. Or purchase them on-line at: <http://www.parks.wa.gov/winter/nonmotorparks/permits/>. They are \$40 for a seasonal permit or \$20 for a one day permit, plus \$2 extra if you buy them through a retail store. It's really a good deal. At other commercial or club ski areas each person has to pay a trail fee each time they go. For the price of one Sno-Park permit, you can load up your vehicle with friends or family and go to over 47 Sno-Parks for the whole winter. It's really a good value for the money.

By buying a Sno-Park permit, you are supporting your community trails and ski club. Sno-Park fees go into a dedicated fund which supports the WA State non-motorized Winter Recreation program. Proceeds are used to maintain and improve all the Sno-Park facilities throughout WA via Sno-Park grants. They pay for plowing out the Sno-Park, sanitation facilities, some of the trail grooming, signs, mapping, education, enforcement and program administration. This program is totally self sustaining. No tax payer money is used! Don't get caught without one; the fine is steep! Both the County Sheriff and the USFS do enforcement and education, so be sure to display your permit on your windshield.

When you go, we want your feedback. Please send your Nordic ski and snowshoe conditions reports to Pete Tryon at ski@tryonhayes.com so we can post them on the NNSC website to share with others. And if you see any trail obstructions, downed trees, etc... we need to know about these so we can go clear them from the trail. You can also give

feedback on the condition of a Sno-Park directly to the WA State Parks and Recreation Commission, on-line at: <http://www.parks.wa.gov/FormCenter/Winter-Recreation-9/SnoPark-Onsite-Evaluation-Form-68> .

Thank you for your help.

LAKE WHATCOM WATERSHED UPDATE

Whatcom County Parks & Recreation Staff will provide an update and discuss the latest planning efforts for park and trails planning within the Lake Whatcom Watershed. Design & Development Supervisor Rod Lamb, Conservation and Parks Steward Reid Parker and Director Michael McFarlane will be available to answer your questions and take comments on the new draft plan encompassing over 8,844 acres. The area was transferred to the County by the State in 2014 to be used for park purposes. Information on the draft plan at can be found on-line at <http://www.whatcomcounty.us/625/Lake-Whatcom-Reconveyance> .

Michael McFarlane

SO WHAT DO YOU THINK?

Have you completed our online survey? It's not too late! We (the board) would like feedback on what the club does well, what it does 'not-so-well', what aspects of skiing (other than more snow) we can improve our efforts on, and where we can best expend the club's resources.

If you have not done so already, please go online (<http://www.nooksacknordicskiclub.org/membership/survey/>) and complete our Winter Trails Survey. It should take less than ten minutes to complete and the results will help us decide priorities for the coming years. We look forward to hearing from you.

KURT'S SECOND TRIP TO THE WHITE SALMON TRAIL

After finishing my morning paperwork I felt inspired to drive up to Razorhone Road to see if there was enough snow to ski. Two weeks before there wasn't any skiable snow, as the gates were still open to traffic but they had been closed for over a week. Baker down-hill ski area was showing plenty of snow, with it falling every day above 3500ft. Though the NNSC website didn't have any ski report, I had a gut feeling that it was snowing down at 2300' on Razorhone Road. I arrived at the Sno-park at about 1230 to a temperature of 32 degrees with snow falling and about 18 inches of sticky snow. There were at least eight vehicles in the parking lot though most people were snow-shoeing. There was a lot of new snow and it was light unfrozen and sticky. By 1330 it had cooled down enough that the snow wasn't sticking so badly. It was definitely skiable and I went as far as the washout beyond Cougar Loop. Coming back in my track I was able to actually ski instead of shuffle. It can be a workout but going back gliding up and down hill was what I'm looking for when I go out. Snow was piled on everything and the light was low.

Many times Razorhone Road can be a marginal ski but today was definitely a good ski day!
